Dear Sir or Madam:

We are submitting the above noted forms for your review and approval. We will market these products through licensed agents to individuals who are group members residing in your state.

These forms will not be marketed with an illustration. These are new forms and do not replace any previously filed or approved forms.

Form BOAGCADB10-AR is a limited liability accidental death benefit life insurance certificate that will be issued to group members. Level premiums are paid by the Certificateholder for 10 years. Form BOAENRADB10-AR is the enrollment form that will initially be completed when applying for the group certificate of coverage.

Form BOAGPADB10-AR is the master policy for the accidental death benefits that will be issued to Bank of America. Form GPADDMAPP is the application form that will be completed when applying for the group policy. GPADDMAPP was approved by your state on April 8, 2009 via SERFF filing LHLI-126096688.

To the best of my knowledge, information and belief, these forms are in compliance with the provisions of the insurance laws, rules and regulations of your state, and do not contain any controversial, unusual or previously disapproved provisions.

Premium amounts and interval of payment are shown on the Benefit Schedule Page of this Certificate. Any premiums not paid when due are in default at the end of the grace period.

Unless the Certificateholder makes an irrevocable designation of Beneficiary, the right to change a Beneficiary is reserved to the Certificateholder. The effective date of the change will be the date the request was signed. We will not be liable for any payment made or action taken by Us before We receive the Certificateholder's request.

Annual Premium:

Premium is \$9 per month plus \$2 per month policy fee.

Active Life Reserves:

The reserves are based on 100% 1959 ADB table at 3% using a benefit of \$137,500. As appropriate, unearned premium reserves, claim reserves and IBNR reserves will be held.

Trend Assumptions – Medical and Insurance:

This policy provides for the payment of limited benefits for accidental death. The Medical trend is expected to have little or no impact on anticipated future claims.

Anticipated Loss Ratio:

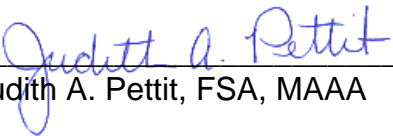

The lifetime anticipated loss ratio is at least 50%. It is calculated as benefits divided by the premium received, using assumed distribution of group tenure and assumed percentage of additional benefits. The benefits were adjusted to remove the motor vehicle accidents. This was based on information contained in Injury Facts, 2009 Edition. A small provision for adverse deviation was included to account for a different mix of tenure business or type of accident.

Distribution of Business:

The expected distribution of business is 40% male and 60% female. It is assumed that 30% of the issues have tenure less than 5 years, 30% have tenure between 5 and 10 years and 40% have tenure over 10 years.

Actuarial Certification:

I hereby certify that to the best of my knowledge and judgment, the entire rate filing is in compliance with the applicable laws and rules of this state, and complies with Actuarial Standard of Practice No. 8, "Regulatory Filings for Rates and Financial Projections for Health Plans," as adopted by the Actuarial Standards Board, December, 2005, which standard is hereby adopted and incorporated by reference, and that the benefits provided are reasonable in relation to the proposed premiums. The anticipated loss ratio is 50%. The anticipated loss ratio is calculated as the benefits divided by the premiums received.
